Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1-4 are rejected under 35 U.S.C. 102(a) as being anticipated by Admitted Prior Art (APA), specification, page 1, lines 9-32.

As to claims 1 and 3, APA teaches a semiconductor wafer having circuits (page 1, lines 9-10) formed on the front surface of a base plate, wherein an ID mark is formed in the interior of the base plate at a predetermined position devoid of the circuits. See page 1, lines 10-15.

As to claims 2 and 4, the ID mark is formed by converging a laser beam (page 1, lines 30-32) at a focal point in the interior of the base plate. See also page 1, lines 23-24.
